

LOGESH M

Full Stack Developer

+91-9361715621 • logeshmani567@gmail.com • Chennai, Tamil Nadu, India

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer and Computer Science graduate with professional experience building end-to-end SaaS applications. Proficient across the full development stack — from crafting responsive React interfaces to engineering robust REST APIs with Node.js, Express.js, and Python. Skilled in database design, JWT-based authentication, third-party API integrations (Meta Graph API, Groq AI), and automated workflow integrations. Adept at translating complex business requirements into clean, scalable, production-ready code.

TECHNICAL SKILLS

Frontend:	React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Web Design
Backend:	Node.js, Express.js, Python, Django, REST API Design & Integration
Database:	MySQL, Sequelize ORM
Auth & Security:	JWT Authentication, Access & Refresh Token Handling
AI & Integrations:	Groq AI API, Meta Graph API (Facebook Lead Ads), Brevo API (Transactional Email)
Dev Tools:	Git, GitHub, VS Code, Postman
Other:	SaaS Architecture, Webhook Integration, Multi-tenant Systems

WORK EXPERIENCE

Full Stack Developer | BSpark Software Technologies 2025 – 2026

- Engineered and delivered SparkCRM, a production-grade Real Estate CRM SaaS with multi-tenant architecture, lead management, project tracking, and Facebook Lead Ads integration.
- Built Facebook Lead Ads integration using Meta Graph API and Webhooks — leads auto-captured from Facebook forms into SparkCRM within seconds of submission, eliminating manual CSV downloads.
- Engineered and delivered Feedesk, a Fee Management SaaS serving small and medium businesses including tuition centers, drawing classes, and dance academies.
- Architected a secure multi-role authentication system (Super Admin, Admin, Member) using JWT with access and refresh token handling, enforcing plan-level login restrictions.
- Developed dynamic member and batch management modules with auto-generated student IDs, streamlining administrative workflows.
- Built a comprehensive fee structure and payment recording engine with automated receipt generation.
- Implemented subscription plan management with real-time login-level expiry enforcement.
- Automated daily email scheduling for fee reminders and subscription expiry warnings using Brevo API.
- Designed and deployed secure REST API backends using Node.js, Express.js, MySQL, and Sequelize ORM.

PROJECTS

SparkCRM – Real Estate CRM SaaS

React.js, Node.js, Express.js, MySQL, Sequelize ORM, JWT, Meta Graph API, Webhooks, Brevo API, Razorpay

- Designed and developed a full-stack multi-tenant Real Estate CRM from concept to deployment, serving builders and real estate companies to manage leads, projects, and sales pipelines.
- Integrated Facebook Lead Ads via Meta Graph API and Webhooks — new leads from Facebook campaigns auto-create in SparkCRM within seconds, with automatic assignment to salespersons.
- Built role-based access control for 7 roles (Superadmin, Admin, Subadmin, Telecaller, Site Supervisor, Document Collector, Property Manager) with scoped data access.
- Implemented flat/property management, lead lifecycle tracking, task management, and customer conversion workflows.
- Integrated Razorpay for subscription payments and Brevo API for transactional email notifications.

AI Resume Builder

React.js, Django, Python, Groq AI API, REST API

- Built a full-stack AI-powered Resume Builder web application with React.js frontend and Django REST API backend.

- Integrated Groq AI API to provide intelligent, real-time content suggestions for resume sections — improving bullet points, summaries, and skill descriptions based on user input.
- Designed a clean, multi-step resume creation flow with live preview and PDF export functionality.
- Implemented user authentication and resume persistence so users can save, edit, and download multiple resume versions.

Feedesk – Fee Management SaaS

React.js, Node.js, Express.js, MySQL, Sequelize ORM, JWT, Brevo API

- Designed and developed a full-stack SaaS web application from concept to deployment targeting small coaching and activity centers.
- Implemented role-based access control for three user tiers (Super Admin, Admin, Member) with secure scoped data access.
- Built end-to-end payment workflows including fee structure creation, payment recording, and automated PDF receipt generation.
- Integrated automated daily email triggers for proactive fee reminders and subscription expiry alerts using Brevo API.
- Delivered a fully responsive React frontend with intuitive dashboards for non-technical business owners.

EDUCATION

Bachelor of Computer Science | D.B. Jain College, Chennai 2022 – 2025

Relevant coursework: Data Structures, Database Management Systems, Web Technologies, Object-Oriented Programming.

Higher Secondary Certificate (HSC) | Manuelmony Matriculation School 2020 – 2022

Score: 76%

Secondary School Leaving Certificate (SSLC) | Manuelmony Matriculation School 2019 – 2020

Score: 70%

CORE STRENGTHS

- Strong analytical and problem-solving skills with a systematic approach to debugging and optimizing code.
- Fast learner with a passion for emerging technologies — currently building with AI APIs (Groq) and third-party integrations (Meta Graph API).
- Excellent communication and teamwork skills demonstrated through cross-functional collaboration in a professional work environment.

LANGUAGES

English (Fluent) • Tamil (Fluent)
